Our architecture is imaginative, beautifully crafted and rooted in place

William Green Architects is a RIBA Chartered Practice, with studios in Oxfordshire and London, specialising in imaginative and beautifully crafted architecture.

We serve London, Oxford, Bath, Home Counties and the Cotswolds providing design solutions for residential and commercial projects.

Our services include architecture, interior design, landscape design and master planning, with expertise in design, project management and contract administration, feasibility studies and sustainable design.

Our diverse portfolio includes luxury contemporary and traditional homes, high end refurbishments, retrofits and extensions, commercial and education architecture.

We create bespoke architecture for clients who value design

We design for discerning client bodies, individuals and niche developers. We collaborate with clients who value bespoke, design led solutions.

Designing private homes, offices and schools, our work is rooted in contemporary, purposeful design.

Our work encompasses contemporary homes, including conversions, refurbishment and retrofit of traditional and listed properties, particularly where significant, modern interventions are proposed.

We also create sustainable, bespoke offices and studios for end users. Healthcare surgeries and centres with contemporary, functional design, together with innovative and aspirational education buildings for private schools.

Designing with clarity and precision

Every project is context-driven, sustainably built and cost aware without compromising beauty.

Every site is unique, so we respond thoughtfully to context, ensuring designs are sustainable, site specific and emotionally resonant.

We favour a natural, sustainable material palette and embrace modern methods of construction.

We prioritise aesthetic integrity while seeking construction cost-efficiencies.

We are committed to high quality design and leading project teams in defining and delivering on project programmes.

Farmhouse, remodel and addition,
Northamptonshire

We work with you

William Green Architects partner with collaborators who share our values and commitment to design excellence.

We work with consultants and construction teams who share our values.

We continuously look to grow and take on larger design projects that align with our vision.

Barn conversion to grand AirB&B,
The Cotswolds

Visionary, context- rooted design

We seamlessly integrate innovative, contemporary architecture with profound respect for site context, history and place. This ensures each project is both forward thinking and deeply connected to its surroundings.

Our designs are meticulously tailored to each project, emphasising unique solutions, crafted with attention to detail and quality materials. This commitment to deliver design ensures that every aspect of our work is deeply considered.

We embed sustainable materials and modern methods of construction as intrinsic parts of the design process, going beyond minimal compliance.

Reflecting our dedication to environmental responsibility and long-term vision.

Emotional & inspirational architecture

Our designs aim to inspire and delight our clients, creating buildings and spaces with lasting emotional resonance and longevity. We believe architecture should evoke a sense of wonder and connection.

We are adept at working across a broad budget range (£350k- £5m) with flexibility to undertake smaller, design led projects focused on quality. This versatility allows us to cater to a diverse clientele with varying needs.

We selectively partner with consultants and construction teams who share our values on quality, sustainability and design integrity. These collaborations ensure that our projects are executed to the highest standards.

Who would be working with you

William Green
Managing Director

William is a qualified RIBA chartered Architect. He worked in practices in London and Bath, before realising his ambition of starting up his own design practice, establishing William Green Architects in 2007.

Thomas Jarman
Projects Director

After studying architecture, Thomas gained diverse experience working on theatre redevelopments, private schools and projects for the Duchy of Cornwall. Today, Thomas is our Projects Director and has day-to-day responsibility for delivering all client projects.

Gareth Williams
Senior Architectural Technologist

Gareth studied at Sheffield Hallam University and is our Senior Architectural Technologist. He is passionate about the design, production and performance of buildings through the use of technology. This achieves stunning results for our clients.

Dan Klaiber
Architect

Dan is a qualified RIBA Chartered Architect. He studied at the universities of Plymouth and Sheffield and has worked in a number of practices in Gloucestershire. He now assists William and Thomas on the delivery of client projects.

Jordan Watt
Project Architect

Jordan is a certified Passivhaus Designer with a passion for sustainable architectural design solutions across all project types. He brings extensive knowledge and experience of successfully delivering complex projects, with previous work including delivering high.

Bushra Jung
Architectural Assistant

Bushra is an architectural designer with over 5 years experience. Bushra completed her Advanced Diploma in Professional Practice in Architecture at UCL in 2020. She is now fully immersed in our projects, creating some beautiful designs.

Our Portfolio

William Green Architects have a strong built portfolio, developing our skills upon projects ranging from:

- Low cost housing estates,
- Historic building retro fits,
- Class Q barn conversions,
- Paragraph 84 houses,
- Grade listed building refurbishments,
- New / Self build,
- Grand design one off houses,
- Significant additions,
- Statement school buildings,
- Offices,
- Healthcare surgeries.

We have the experience to elevate your project beyond expectation and budget, having overcome complex challenges on behalf of our clients to deliver buildings of distinction.

We are driven to continue to grow the scale of buildings we work on and the level of professional service we provide to our clients.

Proposals for a replacement house, **The Cotswolds**
 Replacement house, **The Cotswolds**
 Modern addition, **Upper Lambourn**
 Grade 2 remodel, renovation & extension, **Berkhamsted**

The distinction between the arrival and the perforate elevation, illustrates the different approach to Public and Private realms

Hill House Oxford

Single 'one-off' house

The proposal replaced an existing single dwelling, utilising permitted development rights to enhance permissible built areas and volumes.

The design looks to address arrival and distinct division between public and private realm.

LOCATION
Boars Hill, Oxford

CONSTRUCTION COST
£5M

PROPOSED AREA
1000 SQM

The design carefully opens up the house to the views

The rear private side of the house opens up to 5+ mile views south. The designs carefully opened up the house to the views whilst sheltering the house from solar over heating.

The home library, a key standout item within the brief was designed to accentuate this with elevated entry within a double height space.

Stoke Gap House Northamptonshire

Grade 2 Listed model farm and house

Northamptonshire Grade 2 Listed model farmhouse.

Retrofit, remodel and swimming pool extension.

The proposal was to bring the house into the 21st Century, with sustainability and joy, key to the family.

The new pool wing works with the relocated kitchen, creating a beautifully served south facing terrace

PROPOSED AREA
750 SQM

A new build pool house

The award winning designs proposed a new build pool house, internal remodelling, including reusing the existing formal entrance and hallway, which visually connects the house along a long corridor and landscape views.

The relocated kitchen spills out onto a new south facing terrace connected to the new corner less pool house & gym.

The day-living rooms connect seamlessly to the unique landscapes

Home Lodge Northamptonshire

Remodel, extend and retrofit existing farmhouse.

William Green Architects were introduced to the project for the remodelling, retrofitting and extending of the farmhouse. The overriding brief being to connect the house to the beautiful landscape and ensuring the inherent character was celebrated and enhanced.

WGA designed a bespoke garden room extension that connects the day living with the near and far landscapes. On one side there is an English cottage garden, the other a swim pond and beyond the gable a ha-ha, fields and a long country landscape view.

LOCATION
Northamptonshire

BUDGET
£1.5M

A

“We cannot recommend William Green Architects highly enough. The thing that we felt, all the way through the project, was that we always had Thomas and William on our side willingly giving us all their guidance to avoid the pitfalls”

– Homeowner, Beech House, North Oxfordshire

New family home within the grounds of a listed building, Oxfordshire

CLIENT TESTIMONIALS

“WGA designed a three-storey extension and interior remodelling for our Victorian town house in Oxford. Working with the team was an absolute pleasure. They immediately grasped how we wanted to use the space and generated an imaginative solution, which looks fabulous and is highly practical.”

– Homeowner, Chalfont Road, Oxford

“Our Company had outgrown our offices and we needed something special to reflect our identity. The team brought imagination in the bucket load. The design reflected everything we wanted the office to be and more. the result is that its a great place to work, collaborate and grow.”

– Client, Solid Structural Engineering, Chipping Norton

Office redesign for Xypex,
Banbury
